

A proposed design of each page of the website

Website Pages:

1. Homepage:

- Hero banner emphasizing transparency, engagement, and accessibility.
- Key sections highlighting real-time updates, lawmaker profiles, committee insights, and citizen participation features.
- Calls to action for exploring different sections and registering.
- News and announcements feed.

2. Real-Time Updates:

- Live feed of legislative activity (bills introduced, voted on, etc.).
- Calendar of upcoming legislative events.
- Search bar for finding specific updates.

3. Lawmakers Profiles:

- Searchable directory of all lawmakers with photos, biographies, contact information, and voting records.
- Option to "follow" specific lawmakers for personalized updates.

4. Committees Insights:

- Overview of each committee's responsibilities and ongoing projects.
- Meeting schedules, minutes, and agendas.
- Committee member information and contact details.

5. **Citizen Participation:**

- Contact form for reaching representatives directly.
- Public hearing schedule and information for submitting testimony.
- Discussion forums or polls on current legislative issues.
- Voter registration and information section.

6. **About Us:**

- Project mission and goals.
- Team members and their qualifications.
- Contact information and feedback form.

Additional Considerations:

- **Accessibility:** Ensure the website complies with WCAG accessibility guidelines for all users.
- **Mobile Responsiveness:** Design the website to adapt seamlessly to different screen sizes and devices.
- **Language Options:** Consider offering the website in multiple languages spoken in Liberia.
- **Visual Design:** Use clear navigation, consistent branding, and high-quality graphics to enhance user experience.
- **Content Management System (CMS):** Choose a user-friendly CMS to facilitate content updates and maintenance.
